PREFACE.

Office of HINKLE & CO., }
Cincinnati, Ohio, 1869. }

In presenting our new book on building, molding, etc., to the public, we call attention to the following circular, and the accompanying plans of a few of the public buildings and private residences which we have furnished to different localities in different sections of our country. These plans will be found on pages 43 to 54, and will enable our readers to form a pretty good idea of the appearance and character of the buildings we are accustomed to furnish, and show that our manufactured work is used in public edifices and private residences of the first class.

Also, sixty-six plans of dwellings around Cincinnati and elsewhere, with size of rooms and description attached, costing from one hundred and fifteen to three hundred and fifty thousand dollars.

We have been for the last thirty-seven years, extensively engaged in the business of building houses, and manufacturing all kinds of carpenter work for the inside and outside finish of brick, frame, and stone buildings of every description. We constantly keep on hand a large and full assortment of all materials of this kind; we also keep on hand, for sale, a large amount of lumber for building purposes.

Our factory is the largest of its kind in the United States, and its location is convenient for shipping our goods. It is situated on the bank of the Ohio River, just east of the Gas Works. It is near the depot of the Ohio and Mississippi, Indianapolis and Cincinnati, and Cincinnati, Hamilton and Dayton, Baltimore and Cincinnati, and Cincinnati Southern Railways. With the premises, it occupies a frontage on the river of 122½ feet, extending back 53½ feet to Front Street, affording ample wharf room for receiving and shipping our lumber and manufactured work. We have large yards for storing a great quantity of every description of lumber; the principal one being situated in the upper part of the City, on the river bank, with 375 feet wharf space, and extending back 500 feet, to Front Street.

We purchase and sell annually several million feet of boards, joists, framing timbers, scantling; also, shingles, lath, etc., etc. With the advantages afforded by our large yards, we are enabled to keep constantly on hand, stored up, ready for use, a full assortment of *seasoned* lumber. This we sell at wholesale or retail—unworked, or manufactured into doors, sash, blinds, etc., etc., ready to be put at once into buildings.

From our long experience in this business, and the facilities afforded us by the most improved machinery, and workmen skilled in every branch of their trade, we can manufacture and finish up work of the best quality in a style not surpassed in any other factory, nor by hand-made work, either as regards accuracy, perfection of finish, or durability.

We invite your attention to the facilities we offer for furnishing stairs. There is nothing inside a dwelling, or any other house, more ornamental than a properly constructed flight of stairs. (For plans and illustrations of this article, we refer the reader to pages 29 and 30.)

We also call your attention to the importance of obtaining a good plan of your building, and drawing of all the mechanical work, with the bill of items. (See page 7.)

Persons desirous of securing all the modern improvements in building, heating, lighting, and furnishing dwelling-houses, churches, stores, etc., will do well to visit Cincinnati, where they can have an opportunity of seeing them brought to the highest perfection. The architecture of many of our buildings in the city and country-seats around Cincinnati, is equal if not superior to any in the United States, and will afford you a good opportunity to select a plan.

The extensive scale on which the different branches of manufacturing are carried on in Cincinnati, enables the proprietors to furnish them cheaper than any of the Eastern or Western cities.

Such, also, are our arrangements with manufacturers in this city, that we can furnish any of the following articles, used in the building line, at manufacturer's prices—such as Bell Trimmings, Hardware and Nails, Iron Castings, Verandah Railings, Marble, Iron or Slate Mantels, Coal Grates, French and American Window Glass, Tin Spouting and Gutters, Iron Columns, Caps and Bases, Outcalt's Portable Iron Roofing.

In our business we have had two objects in view: first, to produce a superior article of work; secondly, to make our charges moderate. All know from experience that this rule will create a great demand in any business. The large amount of our sales enables us to sell at small profits.

Respectfully,

HINKLE & CO.

HINKLE & CO., BUILDERS' WAREROOMS, DOOR, SASH, VENETIAN SHUTTER FACTORY, PLANING MILL & LUMBER YARD, No. 365 WEST FRONT ST., CINCINNATI, O. (ADJOINING GAS WORKS.)

Our Warehouse and Factory is 60 by 250 feet, four stories high. We manufacture and keep constantly on hand, Panel Doors, Sash, Venetian and Panel Shutters, Mantels, Door and Window Frames, Base, Pilaster, Weatherboarding, White and Yellow Pine Flooring, Shelving for Stores, Planed Boards, and Moldings of various patterns, suitable for the finish of Frame or Brick Houses of every description. All kinds of Stairs, with Mahogany or Cherry rail, plain or fancy Newel. (See pages 29-30.) Sash, painted and glazed, constantly on hand. In the Lumber Yard connected with this establishment, we have an extensive assortment of Lumber, for building purposes.

Orders filled for Boards, Plank, Shaved and Sawed Shingles, Joist, Lath, Framing and Cornice Timber of every description. Also—Paints, Oils, Glass and Hardware, including Locks, Bolts, Hinges, Sliding Door Trimmings, Screws, Nails, &c.

FLOORING.

We only measure the Face of the board and not the tongue, as is customary in many other cities. In some places they measure the board in the rough, allowing nothing for waste in working; in this way the purchaser pays cost and freight on 1000 feet Flooring, while he only gets from 700 to 800 feet.

CINCINNATI BILL OF PRICES, 1862.

CIRCULAR WORK.

Circular Window Frames, Sash Blinds, Doors, etc., extra price.

Orders for Doors, Sash, and Venetian Shutters, should give Size, Thickness and Finish. Odd sizes extra price.

PARTICULAR ATTENTION given to the making of inside Venetian, Pivot and Panel Shutters in any number of folds desired, and in most improved manner. Boring and Drayage extra.

Directions in Sending Orders.

It is important that you should make your Window Frames to suit the size given in our Circular; then your orders for Doors, Sash and Blinds can be filled immediately, as we have them always on hand. For odd sized work we charge extra price. It also requires longer time to fill such orders, as we have to manufacture the work.

Orders for Sash, when the frames are made, should give width and height of frame in clear; also, thickness of Sash, and the number and size of lights in each window.

Orders for Doors, and Venetian or Panel Shutters, should give width, height, thickness, and finish.

Orders for Door and Window Frames should give thickness of wall, and state if for Frame or Brick House, and whether Outside or Partition Door frames.

In the Lumber Yard connected with this establishment we have an extensive assortment of Lumber for building purposes.

We advise that doors, blinds, &c., be painted one coat before being shipped, as it will preserve them from swelling, if exposed to the weather.

Office of HINKLE & CO.,

CINCINNATI, OHIO, 1869.

TO THE PUBLIC:

Owing to the advance in labor, and all kinds of building materials, we are compelled to make an advance on the Cincinnati Bill of Prices of 1862, contained in this book on the preceding and following pages.

If persons wishing to build, or wanting any thing in our line, will send us a bill of items, giving *SIZE*, *QUALITY*, and *QUANTITY*, we will send them the cost by return mail.

Our Factory is in full operation, and with a good stock of seasoned lumber on hand, we are prepared to fill orders for lumber or manufactured carpenter work at short notice.

DRAWINGS AND SPECIFICATIONS.

It is no uncommon thing for persons to consider plans and drawings unnecessary, and when about to build a house, take upon themselves to be the architects; the consequence is, they get up an ill-proportioned, odd-looking building, and when too late for remedy, they find they have paid dear for the experiment.

Remember, the first thing when about to build, is to obtain a good plan, and drawings of all the different mechanical work and bill of items, giving the sizes, quantities, and qualities of materials; with them you will be enabled to make intelligent contracts for work and material, and save ten times the cost, by avoiding the alterations made when working without them, which frequently causes law-suits. If persons wishing to build houses, will send us by mail a plan and bill of items, we will give the cost, or they can have the plans and bill of items made in Cincinnati at reasonable prices, by sending us a sketch of their building, giving size of rooms, and height of stories, stating the amount they wish to expend; this will enable the architect to make the plans accordingly.

Important for your Interest.

Send your orders direct to **HINKLE & CO., Cincinnati, Ohio**, THEN you will be sure of receiving work manufactured by them, and they will inform you how to send pay for the same.

REFERENCE given in your neighborhood if desired. Any information connected with their business furnished on application.

Price of Moldings, Architraves and Base, is per 100 feet lineal, in 12 or 16 feet lengths.
Brackets, Modillions, and Braces, price each.

Valuable Information on Building.

WE invite attention to the following suggestions, addressed to those about to erect or improve buildings, on the importance of procuring PLANS AND BILL OF ITEMS.

We are in frequent receipt of letters asking at what price we will furnish a building of a given size, at some distant city or plantation, ready for occupation. The writers seem to suppose that the cost of a house can be as readily estimated as that of a suit of clothes.

We do not undertake to build or finish houses. Our business is to furnish the lumber and other materials, including carpenter or joiner work, ready made for brick or frame houses; but in order to estimate for them, it is necessary that we be furnished with plan and bill of items, and that persons may understand what we mean by these, we give an example below.

The PLANS show how a plain frame dwelling is to be constructed, with the arrangement of the foundations, chimneys, doors, windows, stairs, etc.

The BILL OF ITEMS gives the size, quality, and quantity of the materials.

Plans.

PLAN OF FIRST FLOOR.

PLAN OF SECOND FLOOR.

FRONT ELEVATION.

SIDE ELEVATION.

LONGITUDINAL SECTION.

TRAVERSE SECTION.

Dwelling House 39 ft. 4 in. long, 31 ft. 8 in. wide; first story contains 4 rooms and hall, 10 ft. high; second story, 5 rooms 9 ft. high in clear; 1 garret room, and cellar 7 ft. deep.

Bill of Items.

FRAMING TIMBER, JOISTS, RAFTERS, BRIDGING, ETC.

- 2 sills 4 by 10 in., 39 ft. 4 in. long.
- 4 sills 4 by 10 in., 31 ft. 8 in. long.
- 8 posts 4 by 6 in., 21 ft. long.
- 2 plates 4 by 6 in., 39 ft. 4 in. long.
- 4 plates 4 by 6 in., 33 ft. 6 in. long.
- 1 girder 4 by 6 in., 39 ft. 4 in. long.
- 14 joists 3 by 10 in., 16 ft. long.
- 103 joists $1\frac{1}{2}$ by 10 in., 16 ft. long. } First and second floors.
- 10 joists 1 by 10 in., 16 ft. long. }
- 54 joists $1\frac{1}{2}$ by 10 in., 17 feet long. Third floor.
- 10 purlins 3 by 4 in., 16 feet long.
- 42 rafters $1\frac{1}{2}$ by 5 in., 19 ft. long.
- 150 studs 2 by 4 in., 21 ft. long.
- 112 studs 2 by 4 in., 10 ft. long.
- 100 ft. braces $2\frac{3}{4}$ by 4 in.
- 12 pieces 1 by 4 in., 16 ft. long, to cut in studs to receive joists.
- 80 ft. raising plate 1 by 8 in.
- 600 ft. bridging 1 by $2\frac{1}{2}$ in.

WEATHER BOARDS, SHINGLES, CORNICE, FLOORING, AND MANUFACTURED WORK.

- 4500 ft. weather boards, white pine, 2d common dressed.
- 1800 ft. sheathing and scaffolding, 1 in. pine, 3d common.
- 15000 shingles, pine No. 1, 16 in. long.
- 96 ft. lineal cornice planceer, dressed, $\frac{7}{8}$ by 10 in.
- 96 ft. lineal cornice drop fascia, dressed, $\frac{7}{8}$ by $6\frac{1}{2}$ in.
- 96 ft. lineal cornice crown moulding, No. 209 Hinkle & Co.'s Book.
- 80 ft. lineal barge board, dressed, $\frac{7}{8}$ by 5 in.
- 90 ft. lineal corner strip, dressed, $1\frac{3}{8}$ by 4 in.
- 20 brackets, $9\frac{3}{4}$ in. projection, 12 in. high, $1\frac{3}{8}$ thick, No. 232 Hinkle & Co.'s Book.
- 96 ft. bed mold, No. 100 Hinkle & Co.'s Book.
- 80 ft. stop, to form gutter on roof, $1\frac{3}{4}$ by 3 in.
- 3600 ft. flooring white pine, 2d common, dressed one side, tongued and grooved.
- 500 ft. pine boards, dressed, $\frac{7}{8}$ in., for shelving, grounds, etc.
- 672 ft. lineal beveled base, as No. 247 Hinkle & Co.'s Book.
- 48 ft. lineal plinth, $1\frac{1}{8}$ and $1\frac{1}{8}$ rebated for base, and molded.
- 912 ft. lineal band molding, No. 277 Hinkle & Co.'s Book.
- 90 ft. lineal window sill, $\frac{7}{8}$ by $2\frac{3}{4}$ in.
- 90 ft. lineal window fascia, $\frac{7}{8}$ by 4 in.
- 80 ft. lineal carpet sill, $\frac{1}{2}$ by $3\frac{1}{2}$ in., beveled.
- 1 side light and impost door frame, with door side light and transom; frame 6 ft. by 8 ft. 3 in., jambs $6\frac{1}{2}$ wide, door posts $3\frac{3}{4}$ in. thick; panel door 3 by 7 ft. raised and beveled, $1\frac{1}{8}$ thick; side lights panel below raised and beveled, and transom all glazed.
- 1 impost door frame with door and transom; frame 2 ft. 10 in. by 8 ft. 1 in., jambs $6\frac{1}{2}$ wide; door 2 ft. 10 in. by 6 ft. 10 in., raised and beveled $1\frac{1}{8}$ in.; transom glazed.
- 16 partition door frames 2 ft. 10 in. by 6 ft. 10 in., jambs $5\frac{3}{4}$ in. wide, rebated $1\frac{1}{8}$ in.
- 2 partition door frames 2 ft. 3 in. by 6 ft. 10 in., jambs $5\frac{3}{4}$ in., rebated $1\frac{1}{8}$ in.
- 16 doors 2 ft. 10 in. by 6 ft. 10 in., flat and beveled $1\frac{1}{8}$ in.

- 2 doors 2 ft. 3 in. by 6 ft. 10 in., flat and beveled $1\frac{3}{8}$ in.
 8 cellar window frames 10 by 12 in., 3 lights.
 2 common window frames 12 by 16 in., 12 lights $1\frac{3}{8}$ in.
 6 " " " 10 by 16 in., 12 lights $1\frac{3}{8}$ in.
 3 " " " 12 by 14 in., 12 lights $1\frac{3}{8}$ in.
 7 " " " 10 by 14 in., 12 lights $1\frac{3}{8}$ in.
 2 " " " 10 by 12 in., 12 lights $1\frac{3}{8}$ in.
 2 pair sash 12 by 16 in., 12 lights, primed and glazed, $1\frac{3}{8}$ in.
 6 " 10 by 16 in., 12 lights, primed and glazed, $1\frac{3}{8}$ in.
 3 " 12 by 14 in., 12 lights, primed and glazed, $1\frac{3}{8}$ in.
 7 " 10 by 14 in., 12 lights, primed and glazed, $1\frac{3}{8}$ in.
 2 " 10 by 12 in., 12 lights, primed and glazed, $1\frac{3}{8}$ in.
 8 sash 10 by 12 in., 3 lights, primed and glazed, 1 in.
 2 pair venetian shutters 12 by 16 in., 12 lights, $1\frac{3}{8}$ in.
 6 " " 10 by 16 in., 12 lights, $1\frac{3}{8}$ in.
 3 " " 12 by 14 in., 12 lights, $1\frac{3}{8}$ in.
 7 " " 10 by 14 in., 12 lights, $1\frac{3}{8}$ in.
 2 " " 10 by 12 in., 12 lights, $1\frac{3}{8}$ in.
 8 mantels, plain pilaster, 4 ft. high, 5 ft. 2 in. breast.
 2 flight of box stairs, as plan, carriages gained and beveled, steps and risers prepared.
 1 flight of stairs to cellar, carriages and step undressed.
 1 scuttle door and frame in roof 22 in. wide 3 ft. long.
 Outside steps, and platform in front, as plan.

The style of finish can be selected from Hinkle & Co.'s Book of Moldings, etc., and reference be made to the number or figure on bill of items. It contains a great variety of cornice, moldings, base or washboard, architraves, stairs, rails, newels, balusters, brackets, mantels, doors, windows, columns, veranda posts, etc. If anything not found in this book is wanted, it will be necessary to give working drawings.

Remember, the first thing when about to build or alter is to obtain a good plan, bill of items, and specifications. By so doing, you invite competition, as each branch is brought within the comprehension of ordinary mechanics, enabling them to estimate, in a short time, intelligently. Starting thus with a definite plan, you ascertain the whole cost before commencing, and avoid alterations and disputes.

If plans, bills of items, and specifications, can not be procured in your vicinity, you can obtain them in Cincinnati at a reasonable price, by sending us the outside length and width of building, height of story, height of first floor above ground, depth of cellar, if wanted, and a sketch of rooms, giving size, and places for doors and windows marked, and state the amount wished to be expended in the building; with this information the architect can furnish the required plans, etc.

STAIRS.

We are prepared to furnish Stairs all ready to put up. Steps and Risers blocked, glued and housed into wall strings; Newel Posts fitted to carriages; Banisters turned, cleaned off and dove-tailed; Rails all fitted up with screws bored for banisters, and cleaned off, with the drawing and written directions for putting up in building, which can be done by any carpenter.

Orders for stairs should give the width of hall, height of story from top to top of floor; width of Joist on landing or second floor should be accompanied with a drawing, or one selected from annexed figures; also the size and finish of rail. Say if cherry or mahogany; give the length and width of Steps; the size of Banisters and Newel, and kind of wood—cherry, oak, walnut or mahogany; give drawing of base in hall, that the molding on stairs may be the same pattern. Say if circular corners are wanted, as dotted on Nos. 2, 3 and 9.

BUILDINGS

FURNISHED BY

HINKLE & CO.

On the following pages will be seen Plans of Forty-five BRICK, STONE, and FRAME BUILDINGS, for which Hinkle & Co. have furnished all or part of the Wood Work, with the Location, Name of Owners, Architects, Superintendents, and Builders.

These buildings vary in cost from fifteen hundred to eighty thousand dollars. It will be seen that many of them have been erected in the extreme West and South, and some in the Middle States. The plans are adapted to the country in which they are built, and many of them possess great beauty and convenience.

Persons contemplating building will find this book valuable in assisting them to form their plans. Many of these plans are in their office on a larger scale, which can be seen at any time.

Hinkle & Co.'s Cottage Buildings, Cincinnati, O.

We call the attention of the public to the following plans of buildings. They are framed with Sills, Posts, Studs, Joists, and Rafters; the weather-boards are narrow, to be put on horizontal; roofed with shingles, or, if preferred, saturated paper painted with Fire Proof Composition, and sanded; the flooring and partition of white pine boards, narrow, planed, tongued and grooved, beveled base; Doors and Windows furnished with plain casing. We furnish these buildings, all framed, the lumber, shingles, or paper and composition for roof, carpenter work, hardware and sash glazed, all packed and delivered at railroad depot, or Wharf at Cincinnati, at the following prices:

Price \$115, subject to change.

CUT No. 1 represents a house of one room, 15 feet square, one story, 7 feet 10 inches high. It has two windows, glazed, and one door.

CALCULATIONS FOR SHIPPING.—It contains 1,349 feet of lumber, and 413 pounds hardware, etc. Total weight 3,011 pounds. For shingle roof add 3,000 shingles.

Price \$210, subject to change.

CUT No. 2 represents a house 15 by 30 feet, divided into two rooms, one story, 7 feet 10 inches high. It has four windows, glazed, and three doors.

CALCULATIONS FOR SHIPPING.—It contains 2,420 feet of lumber and 807 pounds hardware, etc. Total weight 5,647 pounds. For shingle roof add 5,500 shingles.

Price \$250, subject to change.

We also furnish a No. 2, 15 by 30 feet, 10 feet story, with same number of doors and windows as above, of a larger size.

CALCULATIONS FOR SHIPPING.—It contains 2,730 feet of lumber, and 1,118 pounds of hardware, etc. Total weight 6,578 pounds. For shingle roof add 5,500 shingles.

Price \$350, subject to change.

CUT No. 3 represents a house 15 by 30 feet, two stories; first story 8 feet high, divided into two rooms; second story 7 feet high, divided into two rooms. It has ten windows, glazed, and eight doors.

CALCULATIONS FOR SHIPPING.—It contains 4,435 feet of lumber and 1,240 pounds hardware, etc. Total weight 10,110 pounds. For shingle roof add 5,500 shingles.

Price \$715, subject to change.

CUT No. 4 represents a house 30 by 30 feet, two stories; first story 8 feet high, divided into four rooms; second story 7 feet high, divided into four rooms. It has twenty windows, glazed, and sixteen doors.

CALCULATIONS FOR SHIPPING.—It contains 8,682 feet of lumber, and 2,392 pounds of hardware, etc. Total weight 19,737 pounds. For shingle roof add 11,500 shingles.

The materials in these buildings are light, yet sufficiently strong, and the small space which they occupy, when in parts, renders them easy of transportation. It will require but a few days carpenter work to set up the buildings and finish them. They are designed to be plastered inside, or can be ceiled with thin boards, and papered, which is cheaper than plastering.

We furnish written directions for putting up and finishing these buildings, which can be done by any carpenter.

HINKLE & CO., Cincinnati, Ohio,

PORTABLE DWELLINGS, STORES, CHAPELS, ETC.,

WITH IRON ROOF.

We have invented a Portable Building to meet the present demand for houses. We call the attention of the public to the following plans:

They are framed with sills and plates; grooved to receive perpendicular siding, which is of inch boards, planed on one side, tongued and grooved, with the necessary Flooring, dressed, tongued and grooved. Ceiling over head, of thin, common boards, dressed, jointed for papering to make the building complete. The roof is of iron. The Doors, Windows and Partition are made so their location can be changed, if desired. The buildings are so constructed that they can be put together or taken apart in a few hours. The materials are all light, but of sufficient strength, and are easy of transportation by Wagon, Railroad, or Steamboat. We furnish these buildings, all made and fitted together, Doors and Windows hung and trimmed, packed and delivered to Railroad Depot or Wharf, at Cincinnati, at the price attached. Also, the number of feet of Lumber, and the weight of Hardware, etc., to ascertain the cost of shipping.

Price \$590, subject to change.

Cut No. 1 represents a building of one room, 19x60 feet, one story 10 feet high. It has ten windows with glass in, and shutters, and two doors, all hung and trimmed.

Calculations for Shipping.—It contains 4,830 feet of Lumber, and 2,537 pounds of hardware, etc.

No. 1.

Price \$675, subject to change.

Cut No. 2 represents a store and dwelling, 19x60 feet, one story, 10 feet high, divided into three rooms; it has one pair of sash store doors, two windows and glass, but not glazed in front, with shutters, and three windows with glass in and shutters, and three doors in rear, all hung and trimmed.

Calculations for Shipping.—It contains 5,220 feet of Lumber, and 2,400 pounds Hardware, etc.

No. 2.

Price \$350, subject to change.

Cut No. 3 represents a store and dwelling, 15x30 feet, one story, 10 feet high, divided into two rooms; it has one sash store door, two windows and glass, but not glazed in front, with shutters, and three doors in rear, all hung and trimmed.

Calculations for Shipping.—It contains 1,922 feet of Lumber, and 1,158 pounds of Hardware, etc.

No. 3.

Price \$250, subject to change.

Cut No. 4 represents a dwelling, 15x30 feet, one story, 7 feet 10 inches high, divided into two rooms; it has four windows with glass in and shutters, and three doors, all hung and trimmed.

Calculations for Shipping.—It contains 2,232 feet of Lumber, and 784 pounds of Hardware, etc.

No. 4.

Price \$140, subject to change.

Cut No. 5 represents a house of one room, 15 feet square, one story, 7 feet 10 inches high. It has two windows with glass in and one door.

Calculations for Shipping.—It contains 1,116 ft. of Lumber, and 392 lbs. of Hardware, etc.

No. 5.

These buildings are made 15 feet or 19 feet wide, to suit iron for roof; Story 7 feet 10 inches, or 10 feet high, and can be made any depth required, with store or dwelling front, with any number of Rooms, Doors, and windows desired.

We have furnished a number of these Buildings to persons, who have taken them with goods to the Southern and Western country, landed, put up the store and shelving the same day, and opened to sell goods the next morning. Owners of unimproved real estate, in city or country, will find, in many places, that the rent of these Buildings will pay the cost of them in one year. They could be removed at pleasure when larger buildings would be required.

The great demand for these Portable Houses has compelled us to increase our facilities for manufacturing. We are now prepared to furnish fifty per week.

Send us written directions for putting up these buildings, which can be done by any carpenter.
